Dear Sir/Madam,

Greeting from Southern Taiwan University of Science and Technology (STUST), Taiwan.

Among 155 universities in Taiwan, STUST is a competitive private university of science and technology with much emphasis on practical training. We have approximately 14,500 students, the 2nd largest science and technology university in Taiwan, which implies the preference of Taiwanese students. Our College of Engineering and College of Digital Design were accredited by IEET, the Taiwanese counterpart of ABET, which is also a Provisional Signatory of the Washington Accord, USA. In May 2017, our College of Business was accredited by AACSB and earned the Continuous Improvement Review in February 2022. These accreditations mean that our teaching quality has been recognized by these international organizations and all the credits that our students earn at STUST can be transferred to any university in USA.

STUST offers 9 English taught programs for lecturers to apply to: PhD and MS in Mechanical Engineering, PhD and MS in Electrical Engineering, PhD and MS in Electronic Engineering, MS in Computer Science and Information Engineering, PhD in Business and Management, and Global MBA. For more information about these programs, please refer to our English websites (<http://www.stust.edu.tw/en>).

Besides STUST scholarship programs (<https://oia.stust.edu.tw/en/node/scholarships>), we are happy to announce that a scholarship program Elite Scholarship Program is launched from Fall 2018, particularly to lecturers from Southeast and South Asia. The recipient will obtain \$25,000TWD per month (total \$300,000TWD a year), which easily covers tuition fees, dorm fees, insurance, and living expenses in Taiwan, for 3 years if in PhD programs or for 2 years if in Master's programs. However, the number of recipients is very limited and it only offers to fall semester applicants. If any of your friends, also instructors or lecturers, in either your university or other universities are interested, please spread the words to them. In order to reserve a position for the scholarship, if they are considering coming to study in Fall 2025, please scan the QR code or use the linkage to complete the google document (<https://forms.gle/WzrDw1qpKMH8ZPUF7>) by 28th October, 2024. We are more than happy to see more friends to come study with us.

Sincerely,

Chi-Jo Wang, Ph.D.

Director, Office of International Affairs

Southern Taiwan University of Science and Technology
